The Western DataCom ComCase® T is a rugged form factor, MIL STD 810F, portable solution utilizing mobile IP. Instantly turn up a WiFi hotspot with wireless reach back to your corporate network or tie into wired infrastructures for connectivity.

The ComCase® T can be integrated with the Western DataCom MobileCom family of cellular modems that is capable of operating on Verizon, Sprint, Cingular and T Mobile nationwide networks. In addition, it supports the Western DataCom Intelligent Video Server.

The ComCase® T uses only approved components and is designed for extreme conditions. Measuring 9.75" x 10" x 15" and weighing less than 26 pounds, the ComCase® T is easily transported in its Pelican travel case.

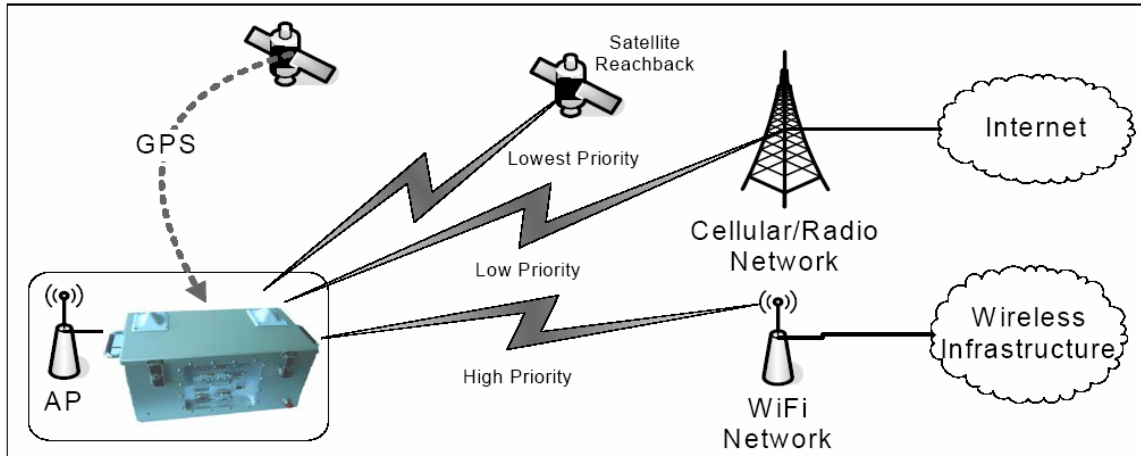

Its rugged fanless design eliminates concerns of dust and water. All inlets and outlets are gasketed and watertight and the case is totally sealed to outside elements. Easy access is provided via the lockable lid which opens 180 degrees.
